## Data collection/research

## Part A:

Table 1- Testing for Carbon Dioxide (CO <sub>2</sub> )					
Cup	Initial (start)BTB color	Final BTB color	After adding 0.05 M Sodium Hydroxide (NaOH)		
A (control)					
B (air bubbled in)					
C (sodium hydroxide)					
D (exhaled breath) Name:					
E (exhaled breath) Name:					

<sup>\*</sup> Answer analysis questions 1 and 2 after this part. Write answers in your notebook.

## Part B - Class Data

Period	Name	Number drops Sodium Hydroxide		Name	Number drops Sodium Hydroxide
			ho		
			exp exp		
			den		
			r stuc ath,		
			e fo bre		
			nt ar vour		
			o the right holding y dioxide.		
			mns to the right are for students who after holding your breath, you exhale irbon dioxide.		
			The colu tested if more ca
