## DATA: Plant and Animal Cell Organelle Structure and Function (7.LS.1, 7.LS.5)

<b>DEFINE:</b>	
<b>analogy</b>	
<b>DEFINE:</b>	
<b>organelle</b>	
<b>DEFINE:</b>	
<b>structure</b>	
<b>DEFINE:</b>	
<b>function</b>	

Cell Part/Organelle	Resource #1 (title):	Resource #2 (title):	Resource #3 (title):	Function Comparison
<p style="text-align: center;"><b>cell wall</b></p> <p style="text-align: center;">P    A</p>	structure:			<p>The function of this organelle is similar to the function of _____</p> <p>because...</p>
	function:			
<p style="text-align: center;"><b>cell membrane</b></p> <p style="text-align: center;">P    A</p>	structure:			<p>The function of this organelle is similar to the function of _____</p> <p>because...</p>
	function:			
<p style="text-align: center;"><b>cytoskeleton</b></p> <p style="text-align: center;">P    A</p>	structure:			<p>The function of this organelle is similar to the function of _____</p> <p>because...</p>
	function:			
<p style="text-align: center;"><b>nucleus</b></p> <p style="text-align: center;">P    A</p>	structure:			<p>The function of this organelle is similar to the function of _____</p> <p>because...</p>
	function:			

Cell Part/Organelle	Resource #1 (title):	Resource #2 (title):	Resource #3 (title):	Function Comparison
<p style="text-align: center;"><b>DNA</b></p> <p style="text-align: center;">P    A</p>	structure:			<p>The function of this organelle is similar to the function of _____</p> <p>because...</p>
	function:			
<p style="text-align: center;"><b>chromatin</b></p> <p style="text-align: center;">P    A</p>	structure:			<p>The function of this organelle is similar to the function of _____</p> <p>because...</p>
	function:			
<p style="text-align: center;"><b>ribosomes</b></p> <p style="text-align: center;">P    A</p>	structure:			<p>The function of this organelle is similar to the function of _____</p> <p>because...</p>
	function:			
<p style="text-align: center;"><b>cytoplasm</b></p> <p style="text-align: center;">P    A</p>	structure:			<p>The function of this organelle is similar to the function of _____</p> <p>because...</p>
	function:			

Cell Part/Organelle	Resource #1 (title):	Resource #2 (title):	Resource #3 (title):	Function Comparison
<p>mitochondria</p> <p>P    A</p>	structure:			<p>The function of this organelle is similar to the function of _____</p> <p>because...</p>
	function:			
<p>endoplasmic reticulum (ER)</p> <p>P    A</p>	structure:			<p>The function of this organelle is similar to the function of _____</p> <p>because...</p>
	function:			
<p>Golgi apparatus/ Golgi body</p> <p>P    A</p>	structure:			<p>The function of this organelle is similar to the function of _____</p> <p>because...</p>
	function:			
<p>vacuole</p> <p>P    A</p>	structure:			<p>The function of this organelle is similar to the function of _____</p> <p>because...</p>
	function:			

Cell Part/Organelle	Resource #1 (title):	Resource #2 (title):	Resource #3 (title):	Function Comparison
<p>chloroplasts</p> <p>P    A</p>	structure:			<p>The function of this organelle is similar to the function of _____</p> <p>because...</p>
	function:			
<p>lysosome</p> <p>P    A</p>	structure:			<p>The function of this organelle is similar to the function of _____</p> <p>because...</p>
	function:			
<p>cilia</p> <p>P    A</p>	structure:			<p>The function of this organelle is similar to the function of _____</p> <p>because...</p>
	function:			
<p>flagella</p> <p>P    A</p>	structure:			<p>The function of this organelle is similar to the function of _____</p> <p>because...</p>
	function:
