Eyewitness Video – Skeleton

7.3.3, 7.3.7

BEFORE VIEWING

Review and define the following. You can find these in your Act. 12 investigation notes.

word	definition
function:	
structure:	

✓ Specific characteristics of structure could be size, shape, location, strength, etc.

DURING VIEWING

Pick one of the focus questions below to concentrate on during the video. Answer the question with two claims and the evidence to prove it. If you need more room, use the back of this sheet.

✓ **Be specific and detailed.**

FOCUS QUESTION #1		FOCUS QUESTION #2	
How does the structure of a bone allow it to perform its function?		What does the structure of an animal's bones tell us about the animal?	
CLAIM	EVIDENCE	CLAIM	EVIDENCE
Some examples could be tusks or even the shape of the spine.		Some examples could be the size of the eye sockets or even the way the jaw bone moves.	

Each space is 0.5 points each.
